

LITTLE SNOW'S SNOWSTORM (Page 1)

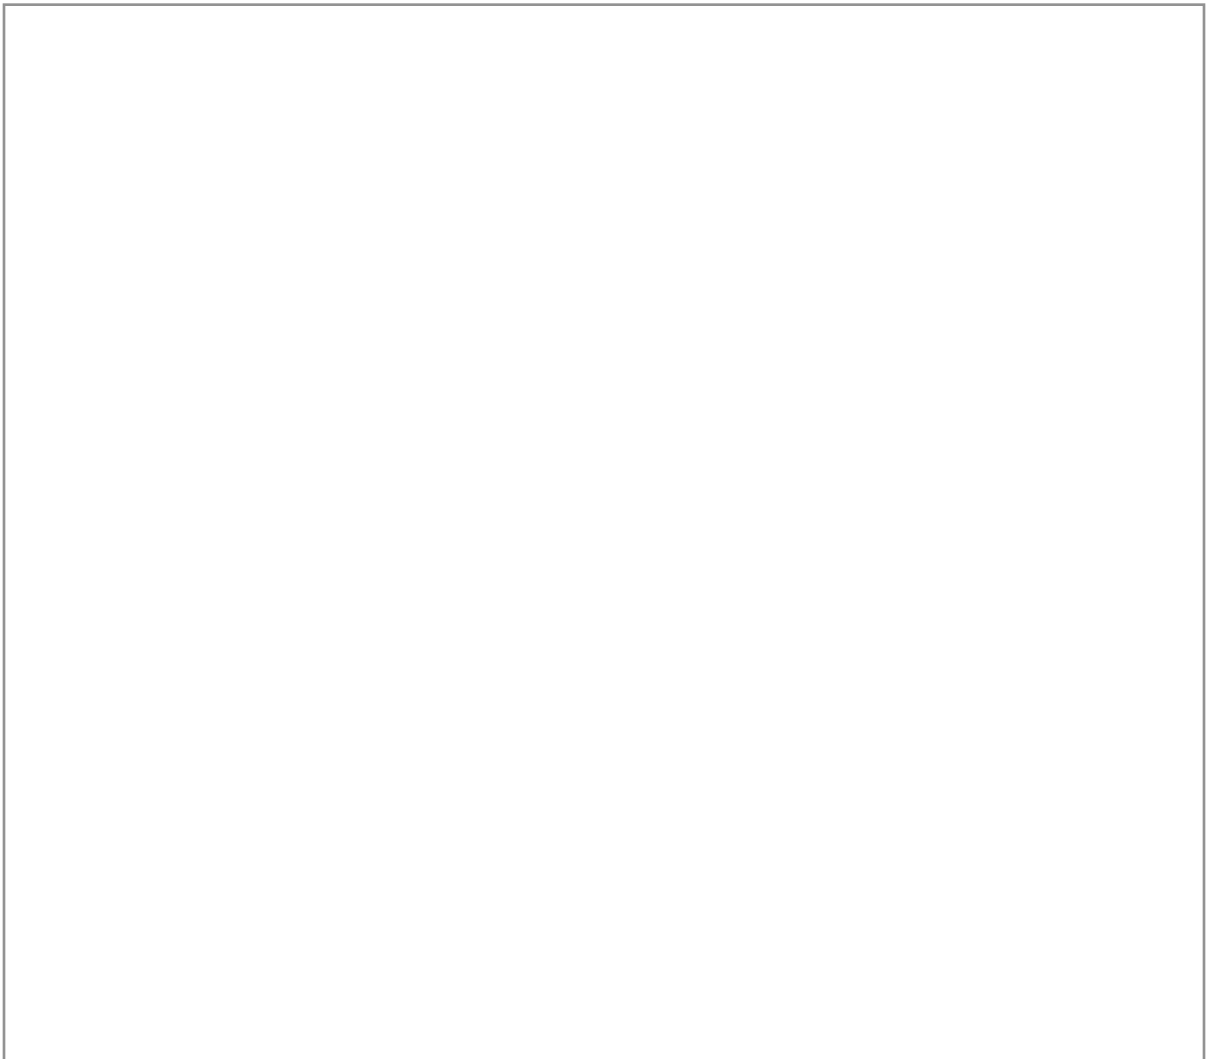

How to Make a Snow Fall on the City Below:

- 1) Cut these instructions away on the solid line.
- 2) Draw yourself in the open window below. Do you want to add a stormy sky or even Little Snow's cloud?
- 3) Find a sandwich bag and fill it with paper punch confetti.
- 4) Blow a tiny bit of air into the bag and seal it shut.
- 5) Turn to the next page and cut out the frame on the solid line. How do you get the inside of the frame? Gently fold the sheet in half to make the inside cut.
- 6) Tape the bag down to the backside of the open frame.
- 7) Glue the frame (with the bag) over the cityscape sheet.
- 8) Shake to make the feathers and snow fall.

Snow-Making Materials:

- 1) Crayons or colored pencils
- 2) Sandwich bag
- 3) Confetti or paper punch to make confetti
- 3) Child-safe scissors
- 4) Clear tape
- 5) Glue stick
