

A Big Mooncake for Little Star: Nibble, Nibble, Yum

This activity will allow you to remove (and nibble) the phases of the moon like Little Star.

1) Cut out this golden circle.

2) Cut each phase from the bottom to the top, leaving a centimeter of paper intact at the top.

4) Lay the gold circle on top of the black circle on page 2, affixing the top and sides.

3) On page 2, run a glue stick along the top edge and sides of the black circle. If the circle were a clock, the glue would span from 8:00 to 4:00.

5) Pull away the phases from right to left with a “nibble, nibble, yum!”

NOTE: This activity works best when glue is not fully dried.
